

Bruce Lichorowic | Chief Executive Officer

Mr. Lichorowic is a highly accomplished serial entrepreneur and chief executive in the field of high tech and medical industries. Starting off in Fortune 500 companies in high tech in Silicon Valley, Mr. Lichorowic crossed into the medical field and now leverages twenty-five years of expertise in big data, machine learning, AR & VR and surgical robotics.

Mr. Lichorowic is currently the President & CEO of Galen Robotics, a spin out from Johns Hopkins University and is working with the Johns Hopkins University Robotics Lab to bring to market a new cooperative surgical robot to address the microsurgical markets within Neurosurgery, Otolaryngology, Cardio and Spine.

As a business expert, Mr. Lichorowic has been an invited speaker to major universities on the subjects of: entrepreneurship, venture funding, best practices, and the use of technology for innovation in medical. He's also spoken on how to benefit from mergers by "Buying your way across the Chasm".
