

Dr. Eiryō Kawakami | Team Leader, RIKEN & Professor, Chiba University Graduate School of Medicine

Dr. Eiryō Kawakami is a Team Leader at RIKEN and also a Professor at Chiba University, Graduate School of Medicine. Kawakami has introduced a wide range of mathematical methods into medical science research by collaborating with researchers in information and mathematical science fields. By using machine learning and mathematical analysis, he develops technologies that can predict and intervene before serious events such as severe illness or death occur.
