

## **Carolina Garcia Rizo, PhD, MBA**

### **C-Suite Biopharma Executive & AI Strategist | Board Member, QuantPi**

Dr. Carolina Garcia Rizo is a C-suite executive with a track record of successful AI biopharma exits. She led the acquisition of **Just Biotherapeutics** (pioneering AI in biologics development and manufacturing) and was instrumental in the IPO of **Immuneering (NASDAQ: IMRX)** (AI-drug discovery with an oncology pipeline). Her experience also includes leading oncology/genomics BD at **Roche**, turnarounds at **Cepheid (Danaher)**, and innovation projects for pharma clients at **Monitor-Deloitte**.

Currently, she actively advises and invests across the AI-Bio space from startups to pharma. She serves as an independent board member at **QuantPi**, a leader in trustworthy AI, supporting **NVIDIA's BioNeMo platform** among other customers.

Recognized as a "**Remarkable Woman in AI 2025**," Dr. Rizo holds an MBA from **MIT**, a PhD in Atomic Physics with a Fulbright Fellowship at **UC Berkeley**, and performed *in silico* proteomics research at the **Max Planck Institute and UCSF**, providing the foundation for her unique blend of deep science and commercial execution.
