Ryan McGuinness | Commercial General Manager, Triple Ring Technologies

Ryan has spent 35 years in the Life Sciences and Medical Device industries focusing on innovation and adding value to the companies that drive it. He has worked with numerous companies that have invented novel technologies for a range of markets, including cell and gene therapies, biotherapeutics, biotech instrumentation, in vitro diagnostics, and medical devices. At Triple Ring Technologies, Ryan leads teams of world class scientists and engineers who work at the intersection of patient needs and cutting-edge technology development. Within the Agility Labs incubator, a subsidiary of Triple Ring Technologies, he helps select the brightest startups for participation and supports their growth. As an active participant in the North American innovation ecosystem, Ryan also spends time connecting early-stage companies to the infrastructure, know-how and funding needed to successfully bring new products to market. Ryan was trained in genetics and molecular cell biology at the University of California at Davis.
